Why Invest in Myanmar?

Myanmar's location is geo-strategic, being situated at the tri-junction of South Asia, South-east Asia and East Asia, bordering some of the fastest growing economies in the world such as China, India, and Thailand. Economic growth has averaged 7.7% since Myanmar's democratic election in 2011. Strong growth is expected to continue as a result of ongoing economic reforms.

Strategic Geographical Location

Resource Rich

Abundant Workforce

Cultural Heritage and Unique Landscape

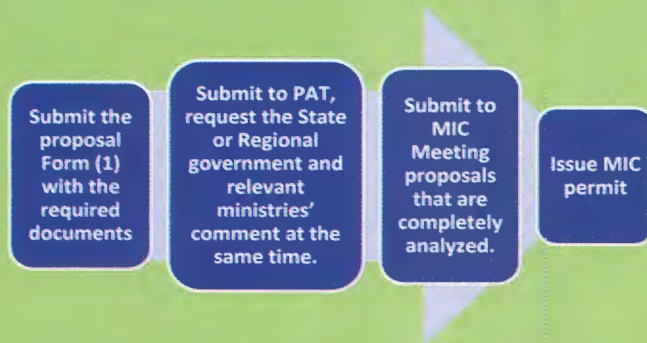

Sizeable Market

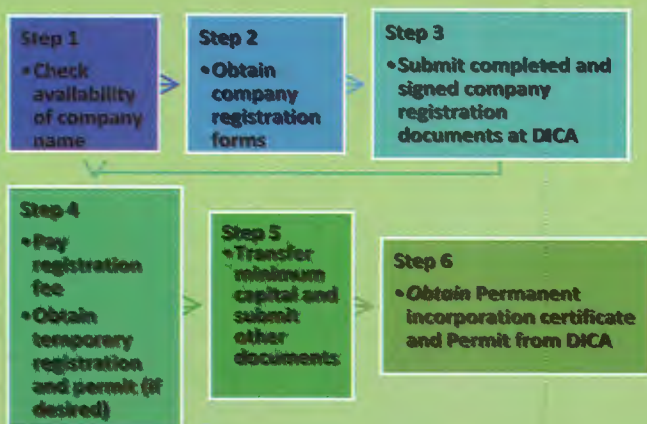

Forms of Investment

Registering of foreign companies for applying investment permit

Registering of foreign companies

Investment Opportunities

Agricultural Sector

- Promoting the development of agro-based industries to increase the production of value added agricultural commodities.

Livestock and Fishery Sector

- A long coastline of 2,832 kilo meters associated with 229,000 square kilo meters of continental shelf and 486,000 square kilo meters of exclusive economic zone.
- Potential for fresh water fisheries development.

Forestry Sector

- Many hardwood and softwood species that have been underutilized in the past.
- Processing value-added products for commercial export.

Hotel and Tourism Sector

- An untapped tourist destination ready for foreign investment.
- Attractive natural and cultural destinations for tourists.

Oil and Gas Sector

- Abundant sources of oil and natural gas for development.
- Petroliferous Onshore and Offshore exploration and production.

Transport Sector

- Encouraging private sector participation in infrastructure development on the basis of Build- Operate-Transfer (BOT) and Joint-Venture in construction of Roads, Inland Cargo Depots, Ports, and Airports.

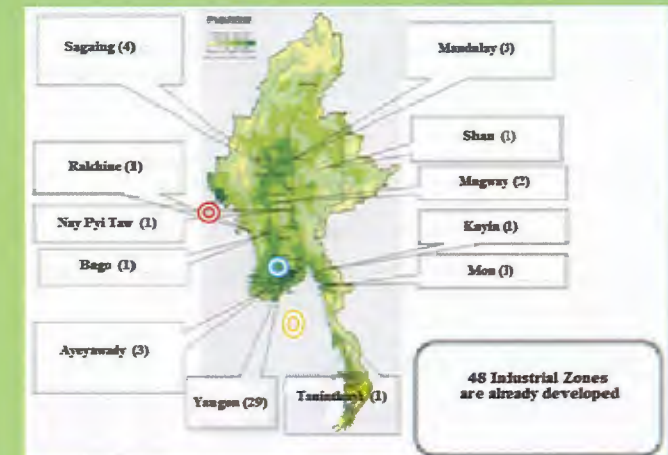

Manufacturing Sector

- Expected to develop in conjunction with sectors such as agriculture, fisheries, mining, and oil and gas.
- An abundance of opportunities to invest in manufacturing sectors such as labour intensive industries, Small and Medium Enterprises (SMEs), and Production Network FDI projects.
